

TGP Board Toolbox — Staff Meeting

Purpose: Introduce the live task board, show how we use it every shift, and agree on floor rules so we're aligned.

Suggested length	20–30 minutes + 10 minutes Q&A
Lead	Manager or Premium Clerk (shift lead)
Audience	All floor staff — stock/float, REC, bakery, premium

Opening (2 min)

*Starting today, the board is our shared to-do list for the shift — not extra paperwork. If it's on **ACTIVE DIRECTIVES**, it's real work. When you finish it, tap **DONE**. The TV shows the same thing so everyone sees priorities.*

Part 1 — What You're Looking At (5 min)

Where we work

Where	What it's for
Phone/tablet → TGP Centre Store (/mobile)	Main board — tasks, expiry, orders, receiving
TV on the floor	Same info, read-only — map, tasks, Daily Direction, pulls
Receiving tablet (/rec)	Truck time-in, TGP pallets, time-out
Expiry tablet (/markdown)	Log dates on aisle walks

Login

1. Open **TGP Centre Store** on your device 2. Pick your name → enter PIN → **UNLOCK UPLINK** 3. Shift lead sets **ACTIVE PREMIUM / SHIFT LEAD** at start of shift

Main screen — two columns

Left — ACTIVE DIRECTIVES

- Today's rhythm tasks (store walk, FIFO, zone walks, etc.)
- Recovery tasks from zone checks
- Assigned by name when schedule is loaded

Right — everything else that moves

- **Expiry** — PULL / WARN
- **OOS flags** — shelf holes
- **Customer orders** — from CS
- **Vendor deliveries** — time in/out

Top bar — KPIs Grocery, freezer, hardware, staff count, PPH — receiving updates labor when asked.

Part 2 — Start-of-Shift Routine (5 min)

Shift lead (Premium/Manager) — every morning

1. **UNLOCK UPLINK** on the lead device 2. Set **ACTIVE PREMIUM / SHIFT LEAD** (who owns huddle + board today) 3. **LOAD DAILY RHYTHM** — puts today's scheduled tasks on the board 4. Confirm **Daily Direction** is on the TV (manager posts priorities / must-wins) 5. Quick huddle: *"Here's what's on the board today — check your name."*

Everyone else

1. Log in 2. Find tasks with **your name** 3. Work top priorities first (**Urgent / High** before **Routine**) 4. Tap **DONE** when finished — don't leave it open if it's done

Key message: *The board only works if we **close tasks when we finish**. Open tasks look like unfinished work to the next person and on reports.*

Part 3 — Daily Rhythm Tasks (5 min)

These load automatically when shift lead taps **LOAD DAILY RHYTHM**:

Task	Who it usually goes to
Daily direction huddle	Shift lead
Store walk / zone walks	Shift lead
FIFO Audit	Person scheduled for those aisles
Level displays, freezer check, back stock, etc.	Stock/float (from schedule)
TGP Order (Sun / Tue / Thu)	REC + whole floor when clock is running

Non-order days (Mon / Wed / Fri / Sat): more back-stock, DOTS, and display work. **Order days:** **TGP Order** is **Urgent** — REC and receiving lead that flow. **If your name isn't on a task:** tell shift lead — they can reassign. Don't grab someone else's task without checking.

Part 4 — Live Demo Walkthrough (8 min)

Do this on a phone and point at the TV. 1. **Show a task card** — name, zone, priority, **DONE** 2. **Complete one task** — tap **DONE**, show it disappear 3. **Show expiry panel** — **WARN** (7-day) vs **PULL** (today) - **WARN** → **SOLD THROUGH** if we sold through - **PULL** → **PULL** when removed from shelf 4. **Show customer order** — CS sent it → floor sees it → **DONE** when handled 5. **Show receiving** — **TIME IN** → work truck → **TIME OUT** - TGP trucks: log pallets on **/rec** before time-out 6. **Show TV** — map lights up for urgent work; Daily Direction at top

Part 5 — Who Can Do What (3 min)

Action	Clerk	Premium / Shift lead	Manager
Complete own tasks (DONE)	✓	✓	✓
Create / reassign / delete tasks	—	✓	✓
Load Daily Rhythm	—	✓	✓
Set shift lead	—	✓	✓
Receiving time-in/out	If permitted	✓	✓
EOD / reports / settings	—	Some	✓

Rule of thumb: Clerks **work and close** tasks. Shift lead **loads rhythm, assigns, and keeps the board accurate**.

Part 6 — Common Mistakes to Avoid (3 min)

1. **Not loading rhythm** → empty board; looks like nothing to do 2. **Leaving finished tasks open** → double work, bad stats 3. **Wrong person on a task** → tell shift lead; don't silently ignore 4. **TGP time-out without logging pallets on** /rec → blocked until pallets are logged 5. **Ignoring 7-day WARN** → use **SOLD THROUGH** if sold out 6. **Clerk trying to reassign tasks** → ask shift lead instead 7. **Multiple people on one login** → use your own name so assignments make sense

Part 7 — Floor Agreements (2 min)

Ask the team to agree out loud:

- ☐ Shift lead loads rhythm **before huddle** (target: by **6:30**)
 - ☐ Everyone checks the board **after huddle** and at **mid-shift**
 - ☐ **DONE** means done — not "I'll finish later"
 - ☐ Receiving uses /rec for TGP pallets every time
 - ☐ Expiry walks use /markdown tablet; pulls show on the board
 - ☐ Questions → shift lead first, manager second
-

Q&A — Quick Answers

Question	Answer
Where do I see my tasks?	ACTIVE DIRECTIVES — your name on the card
What if I'm not scheduled but I'm here?	Shift lead reassigns manually
What if the board looks doubled or wrong?	Tell manager before clearing anything
Do I need the app all day?	Check at huddle, mid-shift, and when the TV shows something new
What's the TV for?	Everyone sees priorities — you don't touch the TV

Closing (1 min)

The board is how we stay aligned without chasing each other around the store. Load it, work it, close it. If something's wrong on the screen, speak up — we're still tuning this together.

<div style="page-break-before: always;"></div>

One-Page Cheat Sheet — Post in Back Room

`` TGP BOARD – DAILY CHEAT SHEET LOGIN → TGP Centre Store → your name + PIN → UNLOCK UPLINK
START → Shift lead: ACTIVE PREMIUM → LOAD DAILY RHYTHM → huddle WORK → ACTIVE DIRECTIVES → your
tasks → DONE when finished EXPIRY → WARN = 7-day watch | PULL = remove today SOLD THROUGH (sold
out) | PULL (removed) RECEIVING → TIME IN → log TGP pallets on /rec → TIME OUT ORDERS → Customer
orders on right panel → DONE when complete TV → Read-only – same board for the whole floor HELP
→ Shift lead → Manager ``
